ASSIGNMENT

- DO NOT RECORD -

Assignment made, 2/14, 2002, by Joanne Chory, Ph.D.
("Inventor") to the Howard Hughes Medical Institute, a Delaware corporation (the
"Institute").

Recitals

WHEREAS, Inventor is an employee of the Institute and, as a condition of his/her employment, has signed the Agreement appended to the Institute's Statement of Policy on Intellectual Property (the "Intellectual Property Agreement");

WHEREAS, pursuant to the Intellectual Property Agreement, Inventor has agreed (a) to assign to the Institute all rights he/she may acquire in any invention, discovery, improvement, or other intellectual property, whether or not patentable or copyrightable, developed directly or indirectly as a result of a program of research financed by Institute funds or by funds under the control of the Institute (each a "Subject Property") and (b) to execute any agreements that may be desired by the Institute in connection with such assignment;

WHEREAS, Inventor has, alone or with others, invented "DAS5, A P450 PROTEIN INVOLVED IN THE BRASSINOSTEROID BIOSYNTHESIS PATHWAY IN PLANTS" (the "Invention") and the Invention is a Subject Property; and

WHEREAS, Inventor seeks to make a formal assignment of his/her interest in the Invention to the Institute, and the Institute desires the execution of a formal assignment of all of Inventor's right, title and interest in the Invention.

NOW THEREFORE, in consideration of the promises contained in and the acts performed and to be performed pursuant to the Intellectual Property Agreement and of other good and valuable consideration, the receipt of which is hereby acknowledged by Inventor, Inventor agrees as follows:

1. Assignment. Inventor hereby assigns to the Institute his/her entire right, title, and interest in the Invention; any United States patent applications and all corresponding foreign patent applications which are directed to the Invention (including, without limitation, the patent application entitled "DAS5, A P450 PROTEIN INVOLVED IN THE BRASSINOSTEROID BIOSYNTHESIS PATHWAY IN PLANTS" filed in the United States Patent and Trademark Office on November 27, 2001, with Application Number 09/995,917), and any and all patents issued therefrom; all United States or foreign division and continuation applications based on any of the foregoing, and any and all patents issued therefrom; and all claims which are directed to the Invention and which may be contained in continuation-in-part applications or in patents which issue therefrom.

2. Cooperation. Inventor agrees to execute upon request such further assignments, documents, and other instruments as may be necessary or desirable to assign Inventor's entire right, title and interest in the Invention to the Institute and to assist the Institute (or others at the direction of the Institute) in applying for, obtaining, and enforcing patents, copyrights, or other rights in the United States and in any foreign country with respect to the Invention.

3. Parties. The terms and provisions of this Assignment shall inure to the benefit of the Institute and its successors and assigns and shall be binding on the Inventor and his/her heirs, personal representatives and assigns.

4. Warranty. Inventor warrants and represents that he/she has not entered into any assignment, contract, or understanding in conflict herewith, and that there is no other person or entity whose consent is required in order for the Inventor to make the assignment contained herein.
